DAY 4:

ASSIGNMENTS 2 :

Q) Assignment 2: Daily Standup Simulation- Write a script for a Daily Standup meeting for a development team working on the software feature from Assignment 1. Address a common challenge and incorporate a solution into the communication flow.

ANSWER:

Daily Standup Meeting Script:

Team Members: 08

Date: 07-05-2024

Time: 03:00

Facilitator: Good morning, everyone! Let's kick off today's standup meeting. As usual, we'll go around the virtual room and each team member will provide a brief update on what they worked on yesterday, what they plan to work on today, and if they're facing any challenges.

Developer 1: Yesterday, I worked on implementing the profile picture upload feature. Today, I plan to finish the implementation and start testing it. No major challenges so far.

Developer 2: I focused on designing the user interface for the profile customization section yesterday. Today, I'll continue with the UI design and collaborate with Developer 1 to ensure the integration goes smoothly. One challenge I encountered is deciding on the optimal layout for the bio input field to accommodate various screen sizes.

Developer 3: Yesterday, I worked on setting up the database schema for storing user profile data. Today, I'll work on integrating the database with the front-end components. One challenge I'm facing is optimizing the database queries for performance, especially when retrieving profile information for display.

Facilitator: Thanks for the updates, team. It sounds like we're making good progress. Now, let's address the challenge Developer 2 mentioned regarding the layout for the bio input field. One solution could be to conduct a quick design review session after this standup where we can collaborate on finding the optimal layout that balances usability and aesthetics. We can also gather feedback from team members who may have encountered similar challenges in the past. Does that sound like a plan?

Developer 2: That sounds great, Facilitator. I think getting input from everyone will help us come up with a better solution faster.

Facilitator: Perfect! We'll schedule the design review session for immediately after this standup. Any other challenges or blockers the team wants to address?

[Silence]

Facilitator: Alright, it seems like we're all set then. Let's conclude the standup meeting here. Remember, if any new challenges arise during the day, don't hesitate to reach out to the team for support. Have a productive day, everyone!

End of Daily Standup Meeting.
